CLUB TIMEKEEPER ROSTER

The smooth running of this Meet is reliant on Volunteer Timekeepers. Your assistance in this matter is greatly appreciated. Please can all clubs listed below ensure that they have supplied TWO timekeepers to each of the specified lanes for the duration of the meet.

Timekeepers should be ready to take their seats immediately prior to the conclusion of warm-up. Timekeepers should bring their own water bottle and snacks as required. All Timekeepers should record their name, Club and time period they were on duty in the Timekeeper log for their lane (in the clipboard).

MARSHALLING

An informal Marshalling process will be in operation. All swimmers should Marshall in the last bay of the Grandstand nearest the 50m Start end of the pool (see venue map).

As a guide, please Marshall for your event no less than Five (5) 'Actual' Events prior to the Event that is in the water. Please be aware that some events have been combined (for example the first Heat of the Meet is actually a combination of Events 1-4, which makes Event 5 the second Event)

Please listen for announcements and keep an eye on the Marshalling board to know when to Marshall. The Meet program will be displayed on the 'colourful wall' at the South end of the pool (see venue map) or swimmers can ask the Marshalling assistants for help.

To assist with marshalling, we recommend swimmers arrive at the event prepared with the following information that they will need for marshalling:

- **Event number/s**
- **Heat number/s**
- **Lane number/s**

It is also a good idea for swimmers to write all event/heat/lane numbers on their arm, in that order.

WARM-UP PROCEDURE

Pool deck access will be from 9am.

Warm up from 9:15 – 9:45am in both pools.

The competition pool will be cleared at 9:45am, ready for racing to start at 10am.

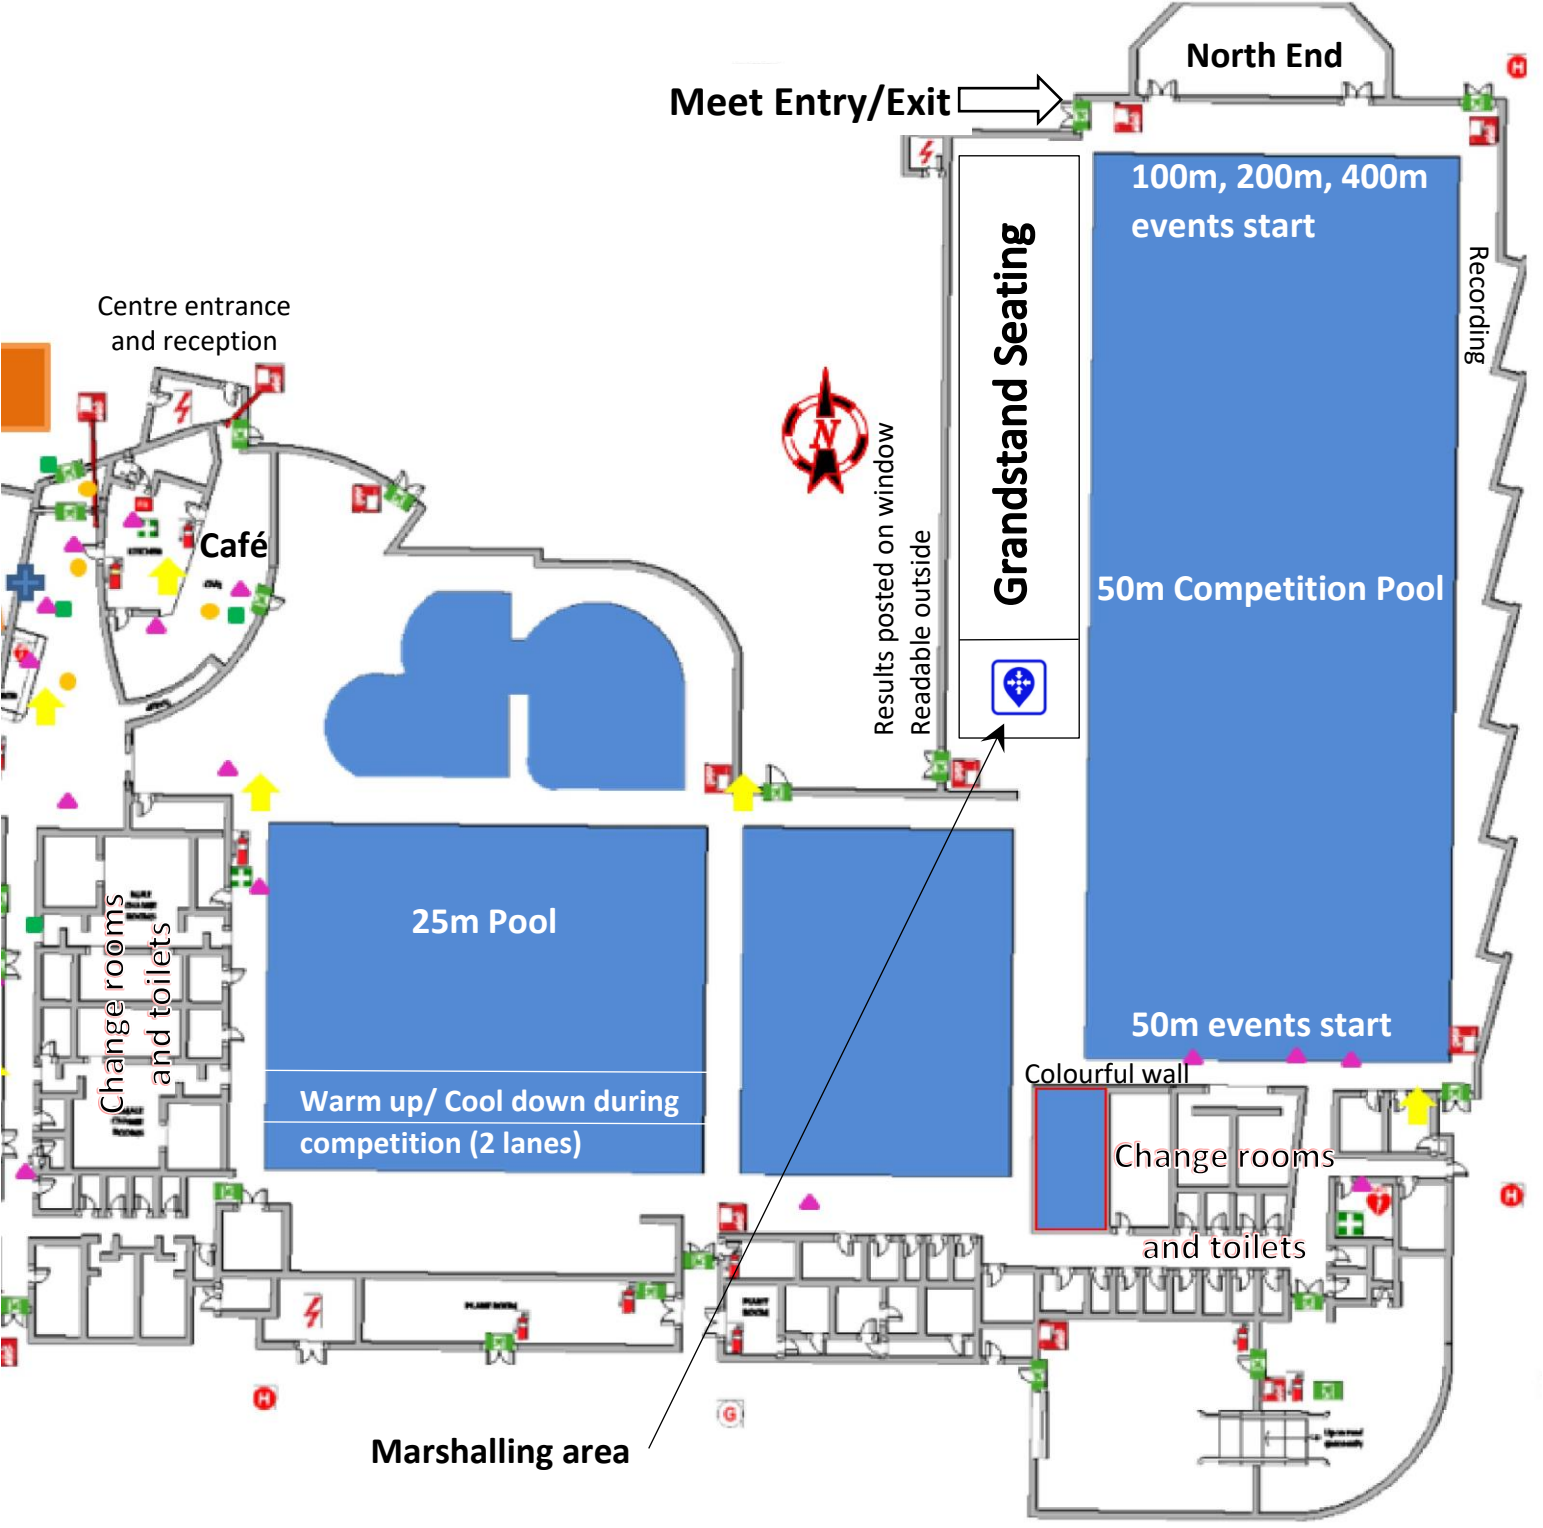

The 25m pool will have 2 lanes available throughout the meet for swimmers to warm up and cool down.

The competition pool will be available for warmup during the break between sessions. It will be cleared 10 minutes prior to the start of the next session.

Swimmers are asked to please comply with any requests to clear the pool.

All coaches and swimmers should be aware of the general warm up procedures for meets:

- **Initial warm up with no dive entries, feet first entry into water.**
- **Swimmers must swim in a clockwise direction.**
- **Starts are to be conducted in lanes 1 and 8 (under coaches' supervision) for the last 10 minutes of warmup in the competition pool. These are to be treated as walk back lanes.**
- **The request to clear the pool must be obeyed immediately.**

11 & UNDER TECHNICAL/PERFORMANCE SUIT POLICY

Swimming Victoria, alongside Swimming Australia, is committed to creating a welcoming and inclusive swimming environment for all competitive members. In 2021, Swimming Australia introduced an [Inclusive Swimming Policy](#) with the aim to ensure:

- All Australians feel welcome safe, valued, and celebrated in swimming.
- All Australians can participate in the role and at the level of their choice in swimming. - Australia's diversity is reflected in swimming.

Swimming Victoria have adopted this framework for all competitions run under the Swimming Victoria rules.

In addition to this framework, the Swimming Victoria Competitions & Events By-Law states that:

'Competitors 11 years and under are not permitted (or allowed) to wear a technical/performance suit in SV hosted competitions'.

This also extends to all competitions run under the Swimming Victoria rules.

Swimming Victoria believe that in order to keep young swimmers in our sport, we need to be providing an environment that encourages them and keeps the level of competition and pressure appropriate for their age. Further rationale for this policy is outlined below.

What is a Technical/Performance Suit?

Technical/Performance racing suits are typically manufactured using scientifically advanced materials. Materials of this type are normally comprised of spandex and nylon composite fabrics with features to reduce 'drag' against the water, reduce absorption of water and are highly compressive to increase the athlete's glide through the water.

The design of these suits also typically includes features like special seams and tape to optimise performance. Traditional one-piece race suits for girls as well as briefs and trunks for boys are not technical/performance suits and are permitted under this policy. Knee length suits and 'jammers' (suits that end closer to the knee than the hip) will be permitted provided they do not feature the key components of a technical/performance swimsuit.

The key, easily- identifiable component/s of a technical/performance suit that should be used when differentiating what is, and is not, permitted are the following:

- Bonded/Sealed seams
- Meshed seams
- Kinetic tape.

The below photographs are examples of swimsuit seaming which is **not permitted** for swimmers aged 11 and under.

The below images are examples of swimwear which **are permitted** for athletes aged 11 and under, noting the stitching is raised on the outside of the fabric.

It should be noted that some permitted swimwear is FINA approved and will have a FINA barcode attached to the back of the suit. FINA approved swimwear can be worn permitted it is not classed as a technical/performance suit. The differentiation between these suits is the fabric and stitching, as described above.
